

WILD COLUMBINE

Aquilegia canadensis

GENERAL INFORMATION

Family: Ranunculaceae

Form: Herb

GROWING ENVIRONMENT

Hardiness Zone: 3 – 8

Light Exposure: Full Sun – Partial Shade

Soil Type: Clay, Loam, Sand

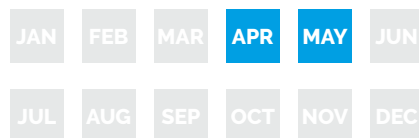

pH Range: Alkaline

Moisture: Medium

Growth Rate: Low

BLOOM INFORMATION

Bloom: April – May

Flowering: Flowering

Bloom Color: Red, Yellow

CHARACTERISTICS

Type: Perennial

Persistence: Deciduous

Leaf Arrangement: Basal

Leaf Margin: Lobed

Flower: Solitary

Fruit: Follicle

Woody Stem: No

DISTRIBUTION

Aggressiveness: Nonaggressive

Compatibility: Compatible
